**Subject:** FW: PCP

Julie, here is that email from Det Meade of the BPD. Let me know if you want me to contact him or if you want to. We can put a rush on it, but if we are looking for something besides PCP, it may take a while. CBS

Hi Charles. If you follow the thread below. We could have some bad Pcp in the city. If we are able to secure a sample is there any way we could test it right away to determine what's in it?

**Subject:** RE: PCP

I am getting it now. She has had a young man in there for 10 days and got four more over the weekend from Charlestown. They have been diagnosed with Acute Global Transient Amnesia, they don't even remember their name. One patient's father works at the hospital and he is giving her the PCP but of course they won't say where it was bought.

I am sure they would if asked. Does she have any?

Steve,  
I just got a call from Deidre Houtmeyers from St. E's. She is seeing a few patients who have used tainted PCP. She said they are seeing a lot of damage in these patients. Will the lab analyze the PCP to see what is in it?
